

DANIEL LUIS COSTA

SOFTWARE DEVELOPER

PERSONAL PROFILE

I'm a student by nature, some of my greatest qualities being my curious personality and my ease to learn. In fact, discovering and exploring new things is something that inspires me in life. Because of that, I'm always open to new challenges.

I'm also a perfectionist, which means that, when I engage in doing something. I'm never satisfied with poor results; I always strive to do better.

SKILLS & ABILITIES

- Easy learning and adaptation
- Good communication skills
- Great programming logic and understanding of baseline computer science concepts
- Deep understanding of agile development principles and knowledge of the literature.
- Fluent English; Native Portuguese

WHAT I VALUE THE MOST

- Space to learn and gain experience
- Agile development core principles
- Working smart rather than hard
- Working to aggregate value and see it
- Treating people as people, not resources
